SUMMARY

I am a UI Designer who loves turning ideas into beautiful, user-friendly interfaces. I've been obsessed with design and tech since I was a kid, and now I get to turn that passion into solving real-world problems. from research to pixel-perfect designs.

With additional skills in HTML/CSS, JavaScript (React/Next.js), and no-code tools like Framer and WordPress, I bridge the gap between design and development. This helps me collaborate seamlessly with Developers, optimize for feasibility, and sometimes even bring my own designs to life.

I am constantly learning, always iterating, and forever excited about the fast-paced world of design.

EDUCATION

Honours in Islamic Studies

Noakhali Islamia kamil M. A.
Madrasha | 2025

SKILLS

EXPERIENCE

UI/UX Designer

Gridpixels | Jul 2024 - Present

- Designed Gridpixels' website, creating a visually appealing and functional interface to enhance user experience.
- Developed premium and free Figma templates, driving engagement and conversions through valuable design resources.
- Currently expanding website features and functionality to improve usability and support business growth.
- Growing the template library by designing new additions, establishing it as a go-to resource for designers.
